An investment in the Company will provide individuals with the opportunity to invest in an established VCT with a mature and diversified portfolio of mainly unlisted smaller British companies with the aim of generating attractive returns over the long term.

Why Invest

Award-winning Fund Manager YFM has a long track record of generating consistent returns through capital growth of investments in established, growing UK businesses. YFM also manages the sister VCT fund, British Smaller Companies VCT plc, winner of VCT of the year 2011 (Investor Allstars Awards) and VCT Deal of the Year 2011 (Unquote British Private Equity Awards) and ranked top in performance over 1, 3 and 10 years by Trustnet as at 1 September 2011. This sister VCT recently distributed a special dividend of 18 pence per Share as a result of its partial realisation in one of its investments. The net proceeds of the Offer will be applied in accordance with the Company's investment policy and it is envisaged that in implementing this policy a significant proportion of funds raised under the Offer will be invested with British Smaller Companies VCT plc.

Historic High Yield

- The Company has paid an average annual tax-free cash dividend of 4.44 pence per Share per annum since dividend payments commenced in 2005 delivering an annual yield of 6.3% which, based on the current offer price would be equivalent to 9.90% per annum to a higher rate taxpayer.

Immediate Access to Dividends

- Applicants will be eligible to receive any final dividend in relation to the year ended 31 December 2011.

Loyalty Bonus

- 2.5% bonus for existing investors applying before 31 December 2011

Benchmarked Performance

The Company ranked in the top quartile both for net asset growth, of all 73 VCTs over five years old and by performance over 10 years (Source: Trustnet, 19 August 2011). It has several investee companies that are at a transformational stage of their growth or have recently made earnings enhancing acquisitions.

Reduced Costs

- YFM Private Equity receives a management fee based on the Net Asset Value. The present management fee of 2.5% per annum will be reduced to 1.25% per annum in respect of any Net Asset Value of the Company in excess of £16 million and up to £26.667 million. The management fee in respect of any Net Asset Value of the Company in excess of £26.667 million will be 2% per annum. In addition monies raised under the Offer will allow the Company's fixed costs to be spread over a wider asset base.

Shareholder Relations

- The Company operates a dividend re-investment scheme allowing Shareholders to build further capital value, and a recently introduced share buy back policy should help to improve liquidity.

Tax Benefits

- Qualifying individuals receive a 30% upfront income tax rebate on the cost of investment provided the shares are held for 5 years. This means that an investment of £10,000 will effectively cost an Investor £7,000. The maximum investment which can be made in order to qualify for the tax reliefs available from a VCT is currently £200,000 per person per tax year, or £400,000 across two tax years.
- Dividends paid by VCTs are exempt from income tax.
- Capital gains on disposal of VCT shares are exempt from capital gains tax.

Key Risk Factors

Prospective Investors should be aware that the value of the Shares can fluctuate and that they may not get back the amount they invest. Investment in the Company should be viewed as a longer term investment. The past performance of the Fund Manager or of the Company is no indication of their future performance.

Investments made in unquoted companies carry a higher degree of risk than quoted companies. There can be no guarantees that the Company will meet its objective or that suitable investment opportunities will be identified. Although the Company may agree conventional venture capital rights in connection with some of its investments, as a minority investor it may not be in a position fully to protect its interests.

Whilst it is the intention that the Company will be managed so as to continue to qualify as a VCT, there can be no guarantee that such status will be maintained. It is possible for Investors to lose their tax reliefs by taking or not taking certain steps. Levels and bases of, and relief from, taxation are subject to change.

Although it is anticipated that the Offer Shares will be admitted to the premium tier of the Official List and to trading on the London Stock Exchange's main market for listed securities, there is likely to be an illiquid market. In addition, the market value of the Shares may not fully reflect the underlying Net Asset Value of the Shares.

Risk Factors

The attention of Investors is drawn to the following Risk Factors that may affect the performance of the Company and the availability of tax reliefs.

The past performance of the Company and/or investments managed by the Fund Manager should not be regarded as an indication of the future performance of the Company. The value of a VCT depends on the performance of the underlying assets. The value of the Shares and the income from them can fluctuate. In addition, there is no guarantee that the market price of Offer Shares will fully reflect their underlying Net Asset Value or the ability to buy and sell at that price. Shareholders may get back less than they invested even after taking advantage of the tax incentives.

Investment in the Company should be regarded as long term in nature and Investors must hold their Shares for five years to retain their income tax relief. The Directors strongly recommend that all potential Investors consult an appropriate authorised independent financial adviser before deciding whether to invest.

In the opinion of the Directors, all known material risks relating to the Company, its industry and the Shares are set out below.

Taxation Related Risks

- Although it is intended that the Company will be managed so as to retain its VCT status, there is no guarantee that such status will be maintained. Further details of the taxation implications of an investment in the Company are set out on pages 30 to 32 of this document. However, if the Company fails to meet its qualifying requirements for a VCT and as a result loses its status as a VCT this could result in:
 - (i) the loss of income tax relief received if Investors have not held their Shares for the required qualifying period;
 - (ii) the loss of income tax relief on dividends paid (or subsequently payable) to Investors;
 - (iii) the loss of tax relief previously obtained in relation to corporation tax on capital gains made by the Company; and
 - (iv) a liability to tax on capital gains on any disposal of new Shares.
- The levels and bases of reliefs from taxation may change. The tax reliefs referred to in this document are those currently available and their value depends on the individual circumstances of Investors.

- An investment in a VCT is free from tax on capital gains for a qualifying Investor. Consequently, any realised losses on disposal of the Offer Shares cannot be used to create an allowable loss for capital gains tax purposes.
- Investors should be aware that the sale of Shares within five years of their subscription will require repayment of the income tax relief available upon investment. Accordingly, investment in the Company is not suitable as a short or medium term investment.
- Changes in legislation, concerning VCTs in general, Qualifying Investments and VCT qualifying trades in particular, may restrict or adversely affect the ability of the Company to continue its current objectives and/or reduce the level of returns which would otherwise have been achievable. For example, on 6 July 2011 HM Treasury issued a consultation paper, which is likely to result in changes to VCT legislation in the Finance Bill 2012. Whilst these changes are presently uncertain, they could restrict the types of businesses that would represent Qualifying Investments and any changes are likely to apply to investments made after 5 April 2012.

Listing and Market Risks

- Although the Shares will be admitted to a premium listing on the Official List and traded on the London Stock Exchange, it is unlikely that a liquid market in the Shares will develop and there may never be two competitive market makers. It may, therefore, prove difficult for Shareholders to sell their Shares.
- There is a limited secondary market for VCT shares and most trade below their net asset values.

Investment and Performance Risks

- The Company's investments are likely to be in companies whose securities are not publicly traded or freely marketable and may, therefore, be difficult to realise.
- In order to comply with VCT legislation, the Qualifying Companies, in which the Company invests, must have gross assets of not more than £7 million immediately prior to investment, must have fewer than 50 full time employees and must not in any 12 month period receive more than £2 million from state aid sources, including VCT money raised on or after 6 April 2007 and the Enterprise Investment Scheme (there are proposals to increase these limits from 6 April 2012, subject to EU approval). These restrictions may limit the number of attractive investment opportunities available to the Company.

-
- The restrictions regarding Qualifying Companies set out in the preceding paragraph mean that the Company is only able to invest in relatively small companies. An investment in unquoted, AIM-traded or PLUS-traded companies, by its nature involves a higher degree of risk than investment in the main market. In particular, small companies often have limited product lines, markets or financial resources and may be dependent for their management on a smaller number of key individuals. In addition, the market for stock in smaller companies is often less liquid than that for stock in larger companies, bringing with it potential difficulties in acquiring, valuing and disposing of such stock. Proper information for determining their value or the risks to which they are exposed may also not be available.
 - The valuations of the unquoted companies in which the Company is likely to be investing are determined in accordance with current financial reporting standards. The valuation of unquoted portfolio companies often takes into account discounted stock market multiples and therefore the valuation of the Company's portfolio and opportunities for realisation may depend on stock market conditions.
 - There is no guarantee that the Company's objectives will be met or that suitable investment opportunities will be available.
 - The Company's ability to obtain maximum value from its investments (for example, through sale) may be limited by the requirements imposed in order to maintain the VCT tax status of the Company (such as the obligation to have at least 70% by value of its investments in Qualifying Investments).

General

- The Offer is conditional upon, and is open prior to, the Shareholders passing at the General Meeting resolutions 1 to 3 set out on pages 34 and 35. If these resolutions are not passed the Offer will not proceed and the benefits set out on page 13 will not be achieved.

The cost of these additional Offer Shares will be met by the Fund Manager and will not, therefore, be an additional charge to the Company.

Reduction in Management and Operating Costs

Letter from the Chairman of the Company

26 October 2011

Dear Investor

I am delighted to be writing to you in connection with the Offer to raise up to £10 million by the issue of Ordinary Shares in British Smaller Companies VCT2 plc.

The prevailing economic conditions of the last few years have been some of the most difficult faced by the UK economy in living memory. Against this background over the last six years and 9 months British Smaller Companies VCT2 plc has been consistent in its dividend performance paying average annual tax-free dividends of 4.44 pence per Share for the period since the payment of dividends commenced. For a higher rate taxpayer this equates to a yield, based on the Offer Price, of 14.1% taking into account all tax benefits. This performance is derived from an existing diversified portfolio of 28 investments built up over a number of years.

I believe that the current economic climate will continue to create increasing opportunities for those investors able to take a long term view to investing in well run and well managed UK businesses, in particular those businesses that need capital to expand but are facing a shortage of finance. History has shown us that cautious investments through the low point of the economic cycle have resulted in the highest portfolio returns.

Investing through a venture capital trust not only offers access to this market but I believe continues to be one of the most attractive investment opportunities currently available, with three distinct advantages over other investment products.

Investing in a VCT

- allows you to benefit from **upfront income tax relief** of 30% on your investment. For example, if you invest £20,000 in British Smaller Companies VCT2 plc, your income tax bill for the current tax year will be reduced by up to £6,000;
- provides you with the opportunity to enjoy the **potentially higher returns** associated with investing in the UK's privately owned businesses; and
- provides **tax-free dividends**.

British Smaller Companies VCT2 plc is an established VCT with a track record of strong and consistent dividend performance.

Significant recent progress has been made by many of the Company's portfolio businesses which is now beginning to show through in improving valuations. The 9 months to 30 September 2011 saw an unaudited 8.0% increase in NAV from an increasingly diversified and well funded portfolio. Although the challenging economic times have continued, many businesses have previously taken tough actions to become more efficient and several are proactively seeking to exploit changes in their market conditions to gain market share and create value. The current focus is on continuing to build a strong and diversified portfolio and maintain a high quality threshold for all new investments whilst seeking to gradually improve levels of portfolio income.

Examples of recent progress within the Company's portfolio include:

- Digital Healthcare Limited, the leading UK provider of retinal screening for diabetic patients, has recently completed the acquisition of the number two provider, Orion Limited, which now gives the company a dominant market position.
- Deep-Secure Limited, a provider of IT products for high security communications between governments and defence organisations, has established a profitable business with a rapidly growing order pipeline in this exciting market.
- Primal Pictures Limited, now a profitable provider of online anatomical models to medical professionals and students, developed a full online training module in 2010 based on its core anatomy models which has significant global potential.

-
- Immunobiology Limited has developed a new vaccine platform technology which has recently received full pre-clinical regulatory approval and is in licensing discussions with several international pharmaceutical groups.
 - Waterfall Services Limited was awarded a significant new contract to provide meals to school children in the Sheffield area from September 2011.
 - Bluebell Telecom Group Limited, a consolidator in the fragmented UK telecoms service market, has just completed its second acquisition.
 - Harvey Jones Holdings Limited, a manufacturer and retailer of quality kitchens experiencing a significant market slowdown, has continued to open new stores, gaining significant market share and developing a strong national brand identity whilst at the same time becoming near debt-free.

Over the 9 month period to 30 September 2011 a total of £1.8 million has been invested in 9 businesses with an active pipeline of current opportunities under consideration by the Fund Manager.

Benefits of the Offer

Attractive Yields – An average annual net cash dividend of 4.44 pence per Share equates to a tax free yield of 9.90% per annum equivalent to 14.1% for a higher rate taxpayer.

Immediate Access to the Dividend Stream – the Offer gives you immediate access to the Company's mature portfolio. Investors will be eligible to receive any final tax-free dividend declared in respect of the financial year ending 31 December 2011.

Additional Incentive – Any investment in the Offer made by existing shareholders in any Venture Capital Trust managed by YFM Private Equity, prior to 31 December 2011 will be entitled to a further 25 free Shares for every 1,000 Shares applied for under the Offer.

Further Reduction in Costs – the further increase in the size of the Company will allow the fixed costs to be spread over a broader asset base as well as enabling a reduction in the Fund Manager's fees.

Unique Deal Flow – The Company will benefit from the large number of investment opportunities generated by YFM's regional offices and thirty investment staff. This level of deal flow enables the Company to be highly selective.

In addition, with in excess of £375 million under management, YFM Equity Partners has one of the largest range of investment funds dedicated to investing in privately owned businesses. Through these funds it has built portfolios with in excess of 200 investments. As a result there may also be opportunities for the Company to participate in follow-on and co-investments in some of those companies already held within these substantial portfolios.

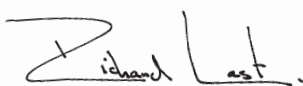

Liquidity – to increase liquidity, the Company now maintains a buy back policy.

The Offer Price is 70.5 pence per Share calculated by reference to the most recent published Net Asset Value, adjusted for the issue costs of 5.5%. The Offer Price is subject to adjustment if the Net Asset Value of the Company increases or decreases by 5% or more prior to the allotment of Shares under the Offer.

The Directors are intending to invest £20,000 under the Offer, increasing the investments of the Directors, the Fund Manager and its employees in the Company to in excess of £370,000.

I look forward to welcoming new Shareholders and thank all existing Shareholders for their continued support.

Yours faithfully

Richard Last
Chairman, British Smaller Companies VCT2 plc

Part 1

Background of VCTs

VCTs were introduced in 1995, incorporating tax incentives for individuals to invest in smaller UK companies. VCTs are specialist investment companies similar to investment trusts listed on the London Stock Exchange.

Background of the Company

Managed by YFM Private Equity, the Company was formed in 2000 and targets investment in companies that are on the point of transformational growth. These comprise a mixture of more mature businesses operating in sectors such as healthcare, manufacturing, digital and telecommunications and business services, as well as a smaller proportion of businesses offering opportunities in the application and development of innovation. The Company has a diverse existing portfolio and has, to date, invested some £10.74m in 28 companies which reduces the exposure to particular markets and individual companies.

The Offer

The UK continues to endure one of the longest recessions in peacetime, an unparalleled level of public sector debt and the worst banking crisis in living memory which, together, have combined to destabilise the economic and business environment. Valuations of unquoted companies have generally fallen over the past three years. At the same time, funding for those companies seeking to expand either organically or through acquisition has been significantly reduced. This means that well managed companies continue to face an unusual combination of falling values and a shortage of capital. The Directors of the Company believe that these changes continue to create the opportunity for those prepared to take a longer term view to invest funds into attractive businesses at a low point in the economic cycle at favourable valuations.

The additional funds raised under the Offer will enable the Company to further increase the pace of its investment activity and both the number and size of its investments in the future. By raising more capital the running costs per Share will be further reduced as the fixed costs are spread over a larger asset base.

The Company will continue to invest predominantly in established unquoted companies. The investment policy of the Company is to create a portfolio that blends a mix of businesses operating in more mature and growing companies that offer opportunities in the application and development of innovation.

The Offer enables new and existing Shareholders to invest in a mature and diverse existing portfolio to be supplemented with new investments made in line with the Company's proven investment strategy.

The Offer aims to raise up to £10 million through the issue of up to 14,539,007 Shares.

The Offer Price is 70.5 pence per Share, calculated by reference to the most recent published Net Asset Value, adjusted for the issue costs of 5.5%. The Offer Price is subject to adjustment if the Net Asset Value of the Company increases or decreases by 5% or more prior to an allotment of Shares under the Offer.

Pricing Mechanism

As the Company is currently trading and, in order to be fair to both existing and new Shareholders, Ordinary Shares under the Offer will be allotted by reference to the Net Asset Value. Therefore, the Company will allot Offer Shares at prices determined by in accordance with the paragraph below.

The Offer Price will, subject to the provisions of this paragraph, be 70.5 pence per Offer Share (being the Net Asset Value as at 30 September 2011 as adjusted for the costs of the Offer. If the Net Asset Value on the last day of the month immediately preceding any allotment of Offer Shares is more than 5% above or 5% below 66.6 pence per Share (being the current published Net Asset Value as at 30 September 2011) then such Shares will be allotted at the relevant Net Asset Value adjusted for issue costs of 5.5%, rounded up to the nearest 0.25 pence. If the price at which the Ordinary Shares allotted under the Offer is adjusted under the terms of this Pricing Mechanism then the Company will announce the fact through a regulated information service.

Investors should, therefore, indicate in the application form the total amount they wish to invest and the number of Shares will be calculated in accordance with the principles set out above.

Share Buy Back Policy

The Company is conscious that its Share price is affected by the illiquidity of its Shares in the market. In line with many other VCTs, the Company, when appropriate, will operate a buy back policy. The policy and the rate of discount at which the Shares are bought back are regularly reviewed and the policy is subject to the passing of a resolution put before the Shareholders every three years. On 30 August 2011 Shareholders voted in favour of re-introducing a buy back policy and the rate of discount to Net Asset Value at which Shares are currently bought back has been set at no more than 15%.

Dividend Reinvestment Scheme

The Company currently operates a dividend reinvestment scheme providing Shareholders with the opportunity to reinvest any cash dividends paid by the Company through the issue of new Shares. Whilst the scheme can be withdrawn at any time, the Directors have no current plans to do so.

Investment Strategy

The Company will continue to invest predominantly in unquoted companies with growth opportunities. The investment policy of the Company is to create a portfolio that blends a mix of businesses operating in more mature and growing companies that offer opportunities in the application and development of innovation. Prior to December 2003, the investment strategy of the Company was focused on investing in companies developing or using innovative technology (albeit generally these companies were not generating profits and in some cases were yet to generate sales). Since December 2003, the investment strategy of the Company has converged with that of its sister company, BSC, by investing in companies that are generally both revenue and profit generating. Investing in these more established companies within its investment remit has allowed the Company to achieve a balance between exciting growth opportunities and mature companies and sectors, reducing the portfolio's exposure to particular markets and individual companies.

The Company's investments typically involve funding for management buy-outs and buy-ins, acquisition funding and business development. The Fund Manager looks for businesses with a strong, balanced and well motivated management team and seeks to support them in the creation of shareholder value. The continued growth of certain businesses within the portfolio has generated some interesting "buy and build" opportunities through the acquisition of smaller competitors and the Directors expect this to increase as the portfolio grows. For example both Digital Healthcare Limited and Bluebell Telecom Group Limited have recently acquired competitors. The majority of the Company's unquoted investments include an element of loan stock to enhance the security of the portfolio and to provide investment income for the Company.

The Fund Manager sources its deals from many areas. Its regional office network provide excellent access to interesting investment opportunities. Having been investing for over 20 years and managing a combined portfolio in excess of 200 unquoted investments, YFM has built an extensive network of chairmen, CEOs and management teams who regularly introduce opportunities to the Fund Manager.

The Fund Manager adds value to the Company's investee companies by being actively involved in the companies from initial investment through to realisation. The Fund Manager uses its commercial experience to help shape and develop the investee company's management teams and often works with them to set, evolve and deliver strategy. By focusing on value growth the Fund Manager helps maximise exit potential for Shareholders.

Investment Objectives

The Company's objectives are:

- To continue to expand its diversified portfolio of investments with a focus on capital growth while maintaining a constant level of dividend;
- To invest at least 70% and up to 85% of its total assets in qualifying assets to maintain the Company's VCT status;
- To invest in smaller private companies which are not always accessible to the private investor; and
- To continue to broaden its portfolio of investments by investing across a range of companies and sectors, thereby reducing an Investor's exposure to particular markets and individual companies.

Performance

The Company has a track record of realising investments that provide a platform to support the payment of tax-free cash dividends.

Practices and Operations

The Board is responsible for the overall control and management of the Company with responsibility for its affairs, including determining its investment policy. Investment proposals are originated by the Fund Manager and formally approved by the Board.

The Board meets regularly throughout the year (normally at least quarterly), and all necessary information is supplied to the Directors on a timely basis to enable them to discharge their duties effectively. Additionally, special meetings will take place or other arrangements made when Board decisions are required in advance of regular meetings.

The provisions of the UK Corporate Governance Code have been complied with for the last financial year and up to the date of this document save that (i) Shareholders are not given the opportunity to meet any new non-executive directors at a specific meeting other than the annual general meeting (since the Company does not have major shareholders) and (ii) the directors (who are all non-executive directors) do not have service contracts, but letters of appointment instead (whereas the UK Corporate Governance Code recommends fixed term renewable service contracts). Remuneration issues are dealt with by the full Board.

Committees

Audit Committee

The Company has an audit committee which meets at least twice a year. The audit committee reviews the actions and judgements of the Fund Manager in relation to the interim and annual financial statements and the Company's compliance with the UK Corporate Governance Code. It reviews the terms of the management agreement and examines the effectiveness of the Company's internal control systems, receives information from the Fund Manager's compliance department and reviews the scope and results of the external audit, its cost effectiveness and the independence and objectivity of the external auditors. The audit committee has written terms of reference which define its responsibilities. The audit committee consists of Richard Last (Chairman), Robert Pettigrew and Peter Waller.

Nomination Committee

The Company has a nomination committee which consists of the directors who are considered by the Board to be independent of the Fund Manager. The chairman of the Board acts as chairman of the committee. In considering appointments to the Board, the nomination committee takes into account the ongoing requirements of the Company and the need to have a balance of skills and experience within the Board.

Allotment Committee

With regards to the allotment of new shares, the Board generally operates through a committee of any two directors, other than in respect of any allotment pursuant to the Company's dividend reinvestment scheme when the committee may comprise any one director. The allotment committee meets as and when required to formally approve the allotment of shares.

Custody Arrangements

The Company's investments will be held by the Fund Manager under the terms of an administration and investment advisory agreement, details of which are set out on page 42. The Fund Manager may be the holder by way of safekeeping of safe custody investments or custody assets belonging to the Company and may hold documents of title itself by way of safekeeping. All investments made for the account of and, subject as aforesaid, monies received for the Company will be deposited in the name of the Company or will be held by a custodian or the Company's solicitors. All certificates and other documents evidencing title (whether or not in registered form) will be received by the Company or the Fund Manager and, as noted above, will be held by the Fund Manager by way of safekeeping in the Company's name or forwarded directly to the custodian or the Company's solicitors. No third party custodian has been appointed. Neither the Fund Manager nor any custodian appointed by the Company will take legal ownership of the Company's assets

Co-investment Policy

The Fund Manager currently advises BSC and a number of other funds on behalf of institutional investors. The Directors believe that this provides Shareholders with a number of advantages, particularly in relation to deal flow and the opportunity for the Company to co-invest in larger deals (including possible co-investments with these other funds) and, therefore, later stage companies. Furthermore, the Company acknowledges that investment opportunities may be suitable for other funds managed by the Fund Manager ("Relevant Funds"). The Fund Manager will consult the Board in relation to such investment opportunities, it being agreed that, in general for early stage innovation investment opportunities below £1m falling within the Company's investment criteria, the Company will be offered first refusal, and for non technology investments below £1m having second refusal after BSC. Investment opportunities greater than £1m will be offered first to other Relevant Funds. In all such cases the proposed basis for the allocation will be presented in advance to the Directors. In the event of a conflict of interest on the part of the Fund Manager (which shall include where an investment is proposed in a company in which a Relevant Fund already has an interest) or where co-investments are proposed to be made other than on the above basis, such an investment will require the approval of the Board who are all independent of the Fund Manager.

Reporting to Shareholders

The Directors strongly believe in the importance of good communication with Shareholders. Investors are kept informed through a series of workshops, newsletters, Quarterly Net Asset Value announcements and a full listing and disclosure of all investments in the interim and full year reports.

Regular updates are announced on the website and emails are issued to keep relevant parties informed.

Accordingly, settlement of transactions in these Shares may take place within the CREST system if Shareholders wish.

The Offer may not be withdrawn after dealings in the Offer Shares have commenced. In the event of any requirement for the Company to publish a supplementary prospectus, Applicants who have yet to be entered into the Company's register of members will be given two business days to withdraw from their subscription. Applicants should note, however, that such withdrawal rights are a matter of law that is yet to be tested in the courts of England and Wales and Applicants should, therefore, rely on their own legal advice in this regard. In the event that notification of withdrawal is given by post, such notification will be effected at the time the Applicant posts such notification rather than at the time of receipt by the Company.

Applicants wishing to subscribe for Shares may do so by completing the Application Form attached at the end of this document. Details of how to complete the Application Form are set out under the heading "Notes on the Application Form" on pages 51 and 52 of this document.

Investor Profile

A typical Investor for whom the Offer is designed is a UK income taxpayer over 18 years of age, who is professionally advised, with an investment range of between £5,000 and £200,000, who may already have a portfolio of non-VCT investments such as unit trusts/OEICS, investment trusts and direct shareholdings in listed companies, who is willing to invest over the medium to long term and who, having regard to the risk factors set out at the front of this document, considers the investment policy of the Company to be attractive. That is to say, an investment policy, with potential returns and associated risks that may be higher than investment in the FTSE All-Share index. This may include retail, institutional and sophisticated investors and high net-worth individuals.

Minimum and Maximum Investment

The minimum application per Investor under the Offer is £5,000. Applications in excess of £5,000 may be made for any higher amount in multiples of £1,000, subject to availability. There is no maximum investment although tax reliefs are only available on a maximum investment of £200,000 per individual in all VCTs in any one tax year. A husband and wife can each invest up to £200,000 in any one tax year with each enjoying the tax reliefs.

Loyalty Bonus Shares

Applicants are encouraged to submit their Application Form early in order to be confident that their applications will be successful. Accepted applications from Shareholders (including spouses) in VCTs managed by YFM Private Equity, which are received by 31 December 2011, will attract additional Offer Shares equivalent to 2.5% of the amount subscribed by such Applicant under the Offer. The cost of these additional Offer Shares will be met by the Fund Manager and will not, therefore, be an additional charge to the Company.

How to Claim the Tax Relief

Certificates to enable a claim for income tax relief to be made are expected to be posted to successful Investors within 10 business days of each allotment. Investors then have two options on how to claim the tax relief:

- (a) by writing to their HMRC to ask for their PAYE tax code to be changed, or
- (b) by waiting until the end of the tax year and completing the appropriate section on the self-assessment form.

Part 2

Investment Policy

The investment policy of the Company is as set out below.

The investment policy of the Company is to create a portfolio that blends a mix of companies operating in traditional industries with those that offer opportunities in the development and application of innovation.

The Company will invest in UK businesses across a broad range of sectors including Industrial, Healthcare, Software and Consumer Products, Electronics and Telecommunications, in VCT qualifying and AIM traded securities which, under the legislation governing VCTs, requires that at least 70% by value of its holdings must be in 'qualifying holdings'. The maximum by value that the Company may hold in a single investment is 15%. Although the majority of investments will be in equities, in appropriate circumstances, preference shares and loan stock may be subscribed for, thereby spreading risk and enhancing yields.

The Company funds the investment programmes out of its own resources and has no borrowing facilities for this purpose. The maximum that the Company may invest in any holding in any tax year is limited to £1 million and the average size of the Company's qualifying investment is £452,000 (2010: £513,000) based on cost of investments. Typically the Company invests alongside other venture capital funds such syndication spreading investment risks.

The Fund Manager, YFM Private Equity Limited, is responsible for the sourcing and screening of initial enquiries, carrying out suitable due diligence investigations and making submissions to the Board regarding potential investments. Once approved, further due diligence is carried out as necessary and HM Revenue & Customs clearance is obtained for approval as a qualifying VCT investment.

The Board reserves the right of the taking of all investment decisions save in the making of certain investments up to £250,000 in companies whose shares are to be traded on AIM and where the decision is required urgently, in which case the Chairman, may act in consultation with the Fund Manager.

The Board regularly monitors the performance of the portfolio and the investment targets set by the relevant VCT legislation. Reports are received from YFM Private Equity Limited as to the trading and financial position of each investee company and members of the investment team regularly attend Board meetings. Monitoring reports are also received at each Board meeting on compliance with VCT investment targets so that the Board can monitor that the status of the Company is maintained and take corrective action where appropriate.

In the opinion of the directors the continuing appointment of YFM Private Equity Limited as Fund Manager is in the interests of the Shareholders as a whole in view of its experience in managing venture capital trusts and in making and exiting investments of the kind falling within the Company's investment policy.

Prior to the investment of funds in suitable qualifying companies, the liquid assets of the Company are either held in cash or invested in a portfolio of Government stocks or other similar fixed interest securities. Reporting to YFM Private Equity Limited, the portfolio is managed by Brewin Dolphin Securities Limited on a discretionary basis. The Board receives regular reports on the make-up and market valuation of this portfolio.

The Company will on occasion, in accordance with VCT legislation, invest surplus liquid resources in an AAA rated liquidity fund, which invests in a pool of highly rated money market securities. Reporting to YFM Private Equity Limited, the fund is managed by Prime Rate Capital LLP. The Board receives regular reports on the diversity and return of the fund's portfolio. At 30 September 2011 £nil was held in this fund and a total of £4,009,735 was held on deposit with Royal Bank of Scotland plc which is included within cash and cash equivalents on the balance sheet.

The Directors shall restrict the borrowings of the Company and, by the exercise of the Company's voting and other rights or powers of control over its subsidiary undertakings (if any), secure that they restrict their borrowings, so that the aggregate amount at any time outstanding in respect of money borrowed by the group, being the Company and its subsidiary undertakings for the time being (excluding intra-group borrowings), shall not without the previous sanction of an ordinary resolution of the Company exceed a sum equal to the aggregate of the amount paid up or credited as paid up on the allotted or issued share capital and the amount standing to the credit of the consolidated revenue reserves of the group as shown by the latest audited consolidated balance sheet of the group adjusted as specified in the Articles. Prior to the publication of an audited balance sheet of the Company such aggregate amount shall be limited to 90 per cent. of the amount paid up or credited as paid up (whether in respect of the nominal value or premium) on the allotted or issued share capital of the Company.

Taxation

VCTs: Summary of the Applicable Legislation

1. Approval

To obtain VCT status a company must be approved by HMRC as a VCT.

To maintain approval, the conditions summarised below must continue to be satisfied throughout the life of the VCT:

- (i) the VCT's income must have been derived wholly or mainly from shares and securities (in the case of securities issued by a company, meaning loans with a five-year or greater maturity period);
- (ii) no holding in a company (other than a VCT or a company which would, if its shares were listed, qualify as a VCT) by the VCT may represent more than 15%, by value, of the VCT's total investments at the time of investment; and
- (iii) the VCT must not have retained more than 15% of the income derived from shares or securities in any accounting period.

The VCT must not be a close company. Its ordinary share capital must be quoted on a European Regulated Stock Exchange by no later than the beginning of the accounting period following that in which the application for approval is made.

The following conditions must also continue to be satisfied throughout the life of the VCT:

- (i) at least 70%, by value, of its investments is represented by shares or securities comprising Qualifying Investments;
- (ii) for funds raised prior to 6 April 2011 at least 30%, by value, of its qualifying investments is represented by holdings of ordinary shares which carry no present or future preferential rights to dividends, return of capital or any redemption rights; and
- (iii) for funds raised on or after 6 April 2011, have at least 70% by value of the Company's Qualifying Investments in "eligible shares". "Eligible shares" for this purpose includes shares which have no preferential rights to a return of capital, but may have certain preferential rights to dividends.

"Qualifying Investments" comprise shares or securities (including loans with a five year or greater maturity period but excluding guaranteed loans and securities) issued by unquoted trading companies which exist wholly or mainly for the purpose of carrying on one or more qualifying trades. The trade must be carried on by, or be intended to be carried on by, the investee company or a qualifying subsidiary at the time of the issue of the shares or securities to the VCT (and by such company or by any other subsidiary in which the investee company has not less than a 90% interest at all times thereafter). A company intending to carry on a qualifying trade must begin to trade within two years of the issue of shares or securities to the VCT and continue it thereafter. The definition of a qualifying trade excludes dealing in property, shares, securities, commodities or futures. It also excludes banking, insurance, receiving royalties or licence fees in certain circumstances, leasing, the provision of legal and accounting services, farming and market gardening, forestry and timber production, property development, shipbuilding, coal and steel production and operating or managing hotels, guest houses, nursing, residential care homes and the generation of electricity from solar or wind power which results in the receipt of feed-in tariffs from solar or wind power. The funds raised by the investment must be used for the purposes of the qualifying trade within certain time limits.

Qualifying Investments are limited to investments of up to £1 million per investee company in any one tax year or in any six month period straddling two tax years. A qualifying investment can also be made in a company which is a parent company of a trading group where the activities of the group, taken as a whole, consist of carrying on one or more qualifying trades. An investee company must at all times have a permanent establishment in the UK. Neither the VCT nor any other company may control the investee company. At least 10% of the VCT's total investment in the investee company must be in ordinary non-preferential shares. For VCT funds raised after 5 April 2007, the investee company's gross assets must not exceed £7 million immediately prior to the investment and £8 million immediately thereafter, must have fewer than 50 full time equivalent employees and must not receive more than £2 million from VCTs or from investors under the Enterprise Investment Scheme in any 12 month period. There are proposals to increase these limits for investments made on or after 6 April 2012, subject to EU State Aid approval.

Companies whose shares are traded on AIM are treated as unquoted companies for the purposes of calculating Qualifying Investments. Shares in an unquoted company which subsequently become listed may still be regarded as a Qualifying Investment for a further five years following listing, provided all other conditions are met.

On 6 July 2011 HM Treasury issued a consultation paper which included proposals for some additional requirements for Qualifying Companies, with a view to ensuring that investments under the VCT and Enterprise Investment Scheme continue to be appropriately targeted at smaller, higher risk companies which would otherwise experience difficulties in raising the finance needed to carry on their business.

2. Taxation of a VCT

VCTs are exempt from corporation tax on chargeable gains. There is no restriction on the distribution of realised capital gains by a VCT, subject to the requirements of company law. The Company will be subject to corporation tax on its income (excluding dividends received from UK companies) after deduction of attributable expenses.

3. Tax Reliefs for Individual Investors Resident in the UK

Individuals who subscribe for Shares under the Offer must be aged 18 or over to qualify for the tax reliefs outlined below.

Relief from income tax

An investor subscribing up to £200,000 in any tax year for eligible shares in a VCT will be entitled to claim income tax relief on the investment, in the year in which the investment is made, at the rate of 30% for investments in the tax years 2011/12, although this relief will be withdrawn if either the shares are sold within five years or an investor takes out a loan which would not have been made, or would not have been made on the same terms, save for the acquisition of such shares. Relief is restricted to the amount which reduces the Investor's income tax liability to nil. However, tax credits on dividends are notional and cannot be repaid and, therefore, Investors should take this into account when calculating the value of the income tax relief.

Dividend relief

An investor who subscribes for or acquires Ordinary shares in a VCT will not be liable for UK income tax on dividends paid by the VCT in respect of investments of up to a maximum of £200,000 in any one tax year. Dividends carry a tax credit at the rate of one-ninth of the net dividend which is not repayable and which cannot be utilised in any other way. The income received by the VCT will usually constitute either interest (on which the VCT may be subject to tax) or a dividend from a UK company (on which the VCT would not be subject to tax). The VCT's income, reduced by the payment of tax (if applicable), can then be distributed tax-free to investors who benefit from this dividend relief.

Capital gains tax relief

A disposal by an individual investor of his shares in a VCT will give rise to neither a chargeable gain nor an allowable loss for the purposes of UK capital gains tax. This relief is also limited to disposals of shares acquired within the £200,000 limit described above.

Loss of tax reliefs

- (i) If a company which has been granted approval or provisional approval as a VCT subsequently fails to comply with the conditions for approval, VCT status may be withdrawn or treated as never having been given. The exemptions from corporation tax and capital gains will not apply to any gains realised by the VCT after this time.
- (ii) For investors, the withdrawal of VCT status may (depending upon the timing of such withdrawal) result in:
 - repayment of the 30% income tax relief on subscription for new VCT shares;
 - income tax becoming payable on payments of dividends by the Company; and
 - a liability to tax on capital gains being suffered in the normal way on the disposal of shares in the Company, except that any part of the gain attributable to the period for which the VCT was approved would be exempt.
- (iii) The consequences for investors in a company which never obtains full unconditional approval as a VCT are as follows:
 - repayment of the 30% income tax relief on subscriptions for new VCT shares and interest on overdue tax may arise;
 - income tax becoming payable on payments of dividends by the Company; and
 - any gain arising on a disposal of the shares would be liable to capital gains tax and losses on the shares would be allowable losses for capital gains tax purposes.

4. Consequences of an Investor Dying or a Transfer of Shares Between Spouses

(i) **Initial income tax**

If an investor dies within five years of making an investment in a VCT, the transfer of shares on death is not treated as a disposal and, therefore, the initial income tax relief is not withdrawn. However, the shares will become part of the deceased's estate for inheritance tax purposes.

(ii) **Tax implications for the beneficiary**

Provided a number of conditions are met, the beneficiary of any VCT shares will be entitled to tax-free dividends and will not pay capital gains tax on any disposal, but will not be entitled to any initial income tax relief.

(iii) **Transfer of shares between spouses**

Transfers of shares in a VCT between spouses are not deemed to be a disposal and therefore all tax reliefs will be retained.

5. General

(i) **Investors who are not resident in the UK**

Non resident investors, or investors who may become non resident, should seek their own professional advice as to the consequences of making an investment in the Company, as they may be subject to tax in other jurisdictions.

(ii) **Stamp duty and stamp duty reserve tax**

No stamp duty or (unless shares in a VCT are issued to a nominee for a clearing system or a provider of depository receipts) stamp duty reserve tax will be payable on the issue of such shares. The transfer on the sale of shares would normally be subject to ad valorem stamp duty or (if an unconditional agreement to transfer such shares is not completed by a duly stamped transfer within two months) stamp duty reserve tax generally, in each case at the rate of 50p for every £100 or part of £100 of the consideration paid. Such duties would be payable by a person who purchases such shares from the original subscriber.

(iii) **Purchases in the market after listing**

Any subsequent purchaser of existing Shares, as opposed to a subscriber for new Shares, will not qualify for income tax relief on investment but may benefit from dividend relief and from capital gains tax relief on the disposal of their Shares.

(iv) **The VCT Regulations 2004**

The VCT Regulations came into force on 17 September 2004. Under the VCT Regulations, monies raised by any further issue of shares by an existing VCT must be applied by that VCT for the purposes of investment which meets the 70% and 30% tests described above. These tests will be deemed not to have been met if any of the money raised (except for amounts which HMRC agrees are insignificant in the context of the whole issued Ordinary share capital of the VCT) is used by the VCT to purchase its own shares.

This is only a brief summary of the law concerning the tax position of individual investors in VCTs. Any potential Investor in doubt as to the taxation consequences of an investment in a VCT should consult an appropriately qualified professional adviser.

4. Memorandum and Articles of Association

4.1 Memorandum of Association

The Memorandum of Association of the Company provides that the Company's principal object is to carry on the business of a venture capital trust. The object of the Company is set out in full in clause 4 of its Memorandum of Association which is available for inspection at the address specified in paragraph 8 below.

4.2 Articles of Association

The Articles of the Company contain provisions inter alia to the following effect.

4.2.1 Voting Rights

Subject to any disenfranchisement as provided in paragraph 4.2.4 below and subject to any special terms as to voting on which any shares may be issued, on a show of hands or by proxy every member present in person (or, being a corporation, present by a duly authorised representative) shall have one vote and on a poll every member present in person or by proxy shall have one vote for every share of which he is the holder.

4.2.2 Transfer of Shares

The Ordinary Shares are in registered form and are freely transferable. All transfers of shares in certified form must be effected by a transfer in writing in any usual form or any other form approved by the Directors. The instrument of transfer of a share shall be executed by or on behalf of the transferor and, in the case of a partly paid share, by or on behalf of the transferee. All transfers of shares which are in uncertificated form may be effected by means of a relevant system. The Directors may refuse to register any transfer of a partly-paid share, provided that such refusal does not prevent dealings taking place on an open and proper basis, and may also refuse to register any instrument of transfer unless:

(a) it is duly stamped (if so required), is lodged with the Company's registrars or at such other place as the Directors may appoint and is accompanied by the certificate for the shares to which it relates (save in the case of a transfer by a person to whom no certificate was issued) and such other evidence as the Directors may reasonably require to show the right of the transferor to make the transfer;

(b) it is in respect of only one class of share; and

(c) the transferees do not exceed four in number.

4.2.3 Dividends

The Company may in a general meeting, by ordinary resolution, declare dividends in accordance with the rights of the members, provided that no dividend shall be payable in excess of the amount recommended by the Directors. The Directors may pay such interim dividends as appear to them to be justified. No dividends or other monies payable in respect of a share shall bear interest as against the Company. There are no fixed dates on which entitlement to dividend arises. The Directors may with the sanction of an Ordinary Resolution of the Company offer the shareholders the right to elect to receive shares credited as fully paid instead of cash in respect of the whole or part of a dividend.

All dividends unclaimed for a period of twelve years after being declared or becoming due for payment shall be forfeited and shall revert to the Company.

4.2.4 Disclosure of Interests in Shares

If any member or other person appearing to be interested in shares of the Company is in default in supplying within 14 days after the date of service of a notice requiring such a member or other person to supply the Company in writing all or any such information as is referred to in section 793 of the 2006 Act, the Directors may, for such period as the default shall continue, impose restrictions upon the relevant shares.

The restrictions available are the suspension of voting or other rights conferred by membership in relation to meetings of the Company in respect of the relevant shares and, additionally, in the case of a shareholder representing at least 0.25 per cent by nominal value of any class of shares of the Company then in issue, the withholding of payment of any dividends on, and the restriction of transfer of, the relevant shares.

4.2.5 Distribution of Assets on Liquidation

On a winding-up any surplus assets will be divided amongst the holders of the shares according to the respective number of shares held by them and in accordance with the provisions of the Act, subject to the rights of any shares which may be issued with special rights or privileges. The Articles provide that the liquidator may, with the sanction of a special resolution and any other sanction required by the Act, divide amongst the members in specie the whole or any part of the assets of the Company in such manner as he may determine.

4.2.6 Changes in Share Capital

- (a) Without prejudice to any rights attached to any existing shares, any share may be issued with such rights or restrictions as the Company may by ordinary resolution determine or, in the absence of such determination, as the Directors may determine. Subject to the Act, the Company may issue shares which are, or at the option of the Company or the holder are liable, to be redeemed.
- (b) The Company may by ordinary resolution increase its share capital, consolidate and divide all or any of its share capital into shares of larger amount, subdivide its shares or any of them into shares of smaller amount or cancel or reduce the nominal value of any shares which have not been taken or agreed to be taken by any person and diminish the amount of its share capital by the amount so cancelled or the amount of the reduction.
- (c) Subject to the Act, the Company may by special resolution reduce its share capital, any capital redemption reserve and any share premium account, and may also, subject to the Act, purchase its own shares.

4.2.7 Variation of Rights

Whenever the capital of the Company is divided into different classes of shares, the rights attached to any class may (unless otherwise provided by the terms of issue of that class) be varied or abrogated with the sanction of a special resolution passed at a separate meeting of such holders.

4.2.8 Directors' Interests

- (a) A Director who is in any way, directly or indirectly, interested in a transaction or arrangement with the Company shall, at a meeting of the Directors declare, in accordance with the Act, the nature of his interest.
- (b) Provided that he has declared his interest in accordance with paragraph 4.2.8(a) above, a Director may be a party to or otherwise interested in any transaction or arrangement with the Company or in which the Company is interested and may be a Director or other officer or otherwise interested in any body corporate promoted by the Company or in which the Company is otherwise interested. No Director so interested shall be accountable to the Company, by reason of his being a Director, for any benefit which he derives from such office or interest or any such transaction or arrangement.
- (c) A Director shall not vote at a meeting of the Directors in respect of a matter in which he has any material interest otherwise than by virtue of his interest in shares, debentures or other securities of, or otherwise in or through, the Company unless his interest arises only because the case falls within one or more of the specified paragraphs in the Articles.
- (d) Where proposals are under consideration concerning the appointment of two or more Directors to offices or employment with the Company or any company in which the Company is interested the proposals may be divided and considered in relation to each Director separately and (if not otherwise precluded from voting) each of the Directors concerned shall be entitled to vote and be counted in the quorum in respect of each resolution except that concerning his own appointment.

4.2.9 Remuneration of Directors

- (a) The ordinary remuneration of the Directors (other than an executive Director appointed under the Articles) shall be such amount as the Directors shall from time to time determine (provided that unless otherwise approved by the Company in general meeting the aggregate of the ordinary remuneration of the Directors shall not exceed £75,000 per year) to be divided among them in such proportions and manner as the Directors may determine. The Directors shall also be paid by the Company all travelling, hotel and other expenses they may incur in attending meetings of the Directors or general meetings or otherwise in connection with the discharge of their duties.

-
- (b) Any Director who, by request of the Directors, performs special services or goes or resides abroad for any purposes of the Company may be paid such extra remuneration as the Directors may determine.
 - (c) The emoluments and benefits of any executive Director for his services as such shall be determined by the Directors and may be of any description, including membership of any pension or life assurance scheme for employees or their dependants or, apart from membership of any such scheme, the payment of a pension or other benefits to him or his dependants on or after retirement or death.

A Director retiring at a meeting shall retain office until the dissolution of that meeting and shall be eligible for re-election.
- (b) A Director shall be capable of being appointed or reappointed a Director despite having attained the age of 70 or any other age and shall not be required to retire by reason of his having attained any particular age.

4.2.11 Borrowing Powers

The Directors may exercise all powers of the Company to borrow money and to mortgage or charge its undertaking, property and uncalled capital.

The Directors shall restrict the borrowings of the Company and, by the exercise of the Company's voting and other rights or powers of control over its subsidiary undertakings (if any), secure that they restrict their borrowings, so that the aggregate amount at any time outstanding in respect of money borrowed by the group, being the Company and its subsidiary undertakings for the time being (excluding intra-group borrowings), shall not without the previous sanction of an ordinary resolution of the Company exceed a sum equal to the aggregate of the amount paid up or credited as paid up on the allotted or issued share capital and the amount standing to the credit of the consolidated revenue reserves of the group as shown by the latest audited consolidated balance sheet of the group adjusted as specified in the Articles. Prior to the publication of an audited balance sheet of the Company such aggregate amount shall be limited to 90% of the amount paid up or credited as paid up (whether in respect of the nominal value or premium) on the allotted or issued share capital of the Company.

4.2.12 Distribution of Realised Capital Profits

At any time when the Company has given notice in the prescribed form (which has not been revoked) to the Registrar of Companies of its intention to carry on business as an investment company ("a Relevant Period"), distribution of the Company's capital profits (within the meaning of section 833(2) of the Act) shall be prohibited. The Board shall establish a reserve to be called the capital reserve. During a Relevant Period, all surpluses arising from the realisation or revaluation of investments and all other monies realised on or derived from the realisation, payment off of or other dealing with any capital asset in excess of the book value thereof and all other monies which are considered by the Board to be in the nature of accretion to capital shall be credited to the capital reserve. Subject to the Act, the Board may determine whether any amount received by the Company is to be dealt with as income or capital or partly one way and partly the other. During a Relevant Period, any loss realised on the realisation or payment or other dealing with any investments or other capital assets and, subject to the Act, any expenses, loss or liability (or provision therefor) which the Board considers to relate to a capital item or which the Board otherwise considers appropriate to be debited to the capital reserve shall be carried to the debit of the capital reserve. During a Relevant Period, all sums carried and standing to the credit of the capital reserve may be applied for any of the purposes for which sums standing to any revenue reserve are applicable except and provided that during a Relevant Period no part of the capital reserve or any other money in the nature of accretion to capital shall be transferred to the revenue reserves of the Company or be regarded or treated as profits of the Company available for distribution (as defined by section 829(1) of the Act) or applied in paying dividends on any shares in the Company otherwise than by way of redemption or purchase by the Company of its own shares. In periods other than a Relevant Period any amount standing to the credit of the capital reserve may be transferred to the revenue reserves of the Company or be regarded or treated as profits of the Company available for distribution or be applied in paying dividends on any shares in the Company.

4.2.13 Duration of the Company

If the Company has not been wound up or re-organised, an ordinary resolution will be put to the annual general meeting of the Company in 2016 or, subject to the Offer proceeding, 2017 and at every fifth annual general meeting thereafter, proposing that the Company should continue as a venture capital trust for a further five year period. If any such further resolution is not passed, the Directors shall draw up proposals for the voluntary liquidation, reconstruction or other reorganisation of the Company for submission to the members of the Company at a general meeting to be convened by the Directors on a date not more than four months after such annual general meeting. Implementation of the proposals will require the approval of members by special resolution.

4.2.14 General Meetings

Annual general meetings shall be held at such time and place as may be determined by the Directors and not more than fifteen months shall elapse between the date of one annual general meeting and that of the next. The Directors may, whenever they think fit, convene a general meeting of the Company, and general meetings shall also be convened on such requisition or in default may be convened by such requisitionists as are approved by the Statutes. Any meeting convened under this Article by requisitionists shall be convened in the same manner as nearly as possible as that in which meetings are to be convened by the Directors. General meetings of the Company other than annual general meetings shall be called general meetings.

Annual general meetings and also general meetings (as a result of the implementation of the Companies (Shareholders' Rights) Regulations 2009) shall be called on not less than twenty-one days notice in writing. The notice shall be exclusive of the day on which it is given and of the day of the meeting and shall specify the place, the day and hour of meeting, and in case of special business the general nature of such business. The notice shall be given to the Members, other than those who, under the provisions of the Articles or the terms of issue of the shares they hold, are not entitled to receive notice from the Company, to the Directors and to the Auditors. A notice calling an annual general meeting shall specify the meeting as such and the notice convening a meeting to pass a special resolution shall specify the intention to propose the resolution as such.

In every notice calling a meeting of the Company or any class of the members of the Company there shall appear with reasonable prominence a statement that a member entitled to attend and vote is entitled to appoint one or more proxies to attend, to speak and vote instead of him.

If within fifteen minutes from the time appointed for the meeting a quorum is not present, (or such longer time not exceeding one hour as the Chairman of the meeting may decide to wait) the meeting, if convened by or upon the requisition of members, shall be dissolved. In any other case it shall stand adjourned to the same place and time one week later or to such day and such time (being not more than twenty-eight days hence) and at such place as the Directors shall determine. At any such adjourned meeting if a quorum is not present within 15 minutes from the time appointed for the meeting the Member or Members present in person or by proxy and entitled to vote shall be a quorum and have power to decide upon all matters which could properly have been disposed of at the meeting from which the adjournment took place. If the meeting is adjourned for 14 days or more the Company shall give not less than five days notice thereof by advertisement in one national newspaper, but no other notice shall be required.

The Chairman may, with the consent of the meeting (and shall, if so directed by the meeting) adjourn any meeting from time to time and from place to place. No business shall be transacted at any adjourned meeting other than the business left unfinished and which might properly have been transacted at the meeting from which the adjournment took place. When a meeting is adjourned for thirty days or more (otherwise than due to the absence of a quorum) or without a time and place for the adjourned meeting being fixed at least seven clear days notice of the adjourned meeting shall be given in the same manner as in the case of the original meeting.

As is usual in contracts of this type YFM Private Equity agreed to indemnify the Company and BSC (the “Companies”) against the costs of the linked offer exceeding 5.5% of the aggregate value of accepted applications for Ordinary Shares received under the linked offer and received a commission of 5.5% of the aggregate value of the gross proceeds received by the Companies under the linked offer, less the initial commission paid by the Companies to recognised intermediaries in respect of accepted applications in the amount set out on page 11 of the prospectus for the linked offer. The Investment Management Agreement may be terminated by not less than twelve months’ notice given by either party at any time. The key features of the agreement are: YFM Private Equity receives a fund management fee, payable quarterly in advance, at the rate of 2.5% of Net Asset Value, calculated at half-yearly intervals as at 30 June and 31 December. Pursuant to a deed of variation dated 26 October 2011 the management fee will be reduced to 1.25% per annum in respect of any Net Asset Value of the Company in excess of £16 million and up to £26.667 million and to 2.0% in respect of any Net Asset Value of the Company in excess of £26.667 million. Pursuant to the same deed of variation, if the Net Asset Value of the Company exceeds £20 million, YFM Private Equity shall bear the annual operating costs of the Company (including the management fee set out above but excluding any payment of the performance incentive fee details of which are set out in paragraph 6.4 below and excluding VAT and trail commissions) to the extent that those costs exceed 3.5% of the Net Asset Value of the Company. Under the Investment Management Agreement YFM Private Equity also provides administrative and secretarial services to the Company for a fee of £46,000 per annum plus annual adjustments to reflect movements in the Retail Prices Index. The total remuneration payable to YFM Private Equity in the period to 31 December 2010 was £360,000 (2009: £367,000).

If the Net Asset Value exceeds £20 million the annual operating expenses (including the management fee set out above but excluding any payment of the performance incentive fee details of which are set out in paragraph 6.4 of Part 5 and excluding VAT and trail commissions) of the Company would be capped at 3.5% of Net Asset Value. The cap is presently 4% having been reduced in accordance with the Company's and BSC's linked offer fundraising for 2010/11 for the Company and BSC which advised that the total cap on annual operating expenses would be reduced to 4.0% if monies raised were £5 million or less.

- 7.11 BSC2 had available as at 30 September 2011 cash at bank of £4,042,234 and £2,099,484 in government stocks and similar fixed interest securities, which should be supplemented by the net proceeds of the Offer (source: unaudited Interim Management Statement for the period from 30 June to 30 September 2011). As at the date of this document the Company had no loan capital outstanding, no other borrowings or indebtedness in the nature of borrowings and no contingent liabilities or guarantees.
- 7.12 The issued Ordinary Shares as at the date of this document will represent 61.7% of the enlarged Ordinary Share capital immediately following the Offer, assuming the Offer is fully subscribed at an Offer Price of 70.5 pence per Offer Share, that the maximum number of Loyalty Bonus Shares are allotted, and that there is no increase in the size of the Offer and, on the basis that the new Ordinary Shares are being issued at the NAV as at 30 September 2011 adjusted for the costs of the issue, the existing Ordinary Shareholders will not suffer any NAV dilution on a pence per share basis.

-
- 7.13 There have been no significant factors, including unusual or infrequent events or new developments, which have materially affected the Company's income from operations. There have been no governmental, economic, fiscal, monetary or political policies or factors that have materially affected the Company's operations. However, levels and bases of, and relief from, taxation are subject to change and such changes could be retrospective and could materially affect the Company's operations.
- 7.14 The Board is responsible for the determination and calculation of its Company's Net Asset Value and intends to announce it at least quarterly, through a regulatory information service. The Board believes that, by announcing the Company's financial results on a regular basis, it should help to provide a fairer market price for its Shares.
- 7.15 In the opinion of the Company, its working capital is sufficient for its present requirements, that is for at least 12 months from the date of this document.
- 7.16 The Company has entered into the following related party transactions during the period covered by the historical financial information set out in Part 3 and up to the date of this document:
- YFM Equity Partners Limited the parent company of YFM Private Equity Limited holds investments in Primal Pictures Limited which as at 31 December 2010 was valued at £29,161 and Digital Healthcare Limited which as at 31 December 2010 was valued at £21,791.
 - Mr R Pettigrew holds a 0.1% equity stake in Digital Healthcare Limited.
 - Mr R Last has been a non-executive director of Patsystems plc since January 2002. During the year to 31 December 2010 Mr Last received £45,000 from Patsystems plc in respect of his services. Mr R Last holds a 0.4% equity stake in Patsystems plc.
 - The offer agreements dated 26 October 2011 and 8 December 2010 referred to in paragraphs 6.1 and 6.2 above and the deed of variation dated 8 December 2010 referred to in paragraph 6.3 above.
- 7.17 Valuation of listed investments and investments traded on AIM or other public stock markets will be stated at closing bid prices. Where quoted investments are subject to restrictions, an appropriate discount to the latest market price may be applied with regard to International Private Equity and Venture Capital ("IPEVC") valuation guidelines. Investments not listed on a public stock market will be stated at Directors' valuation. The Directors will value these investments in accordance with the IPEVC valuation guidelines.
- 7.18 Investments will be valued quarterly by the Board and these net asset values will be communicated to its Shareholders through a regulatory information service. The Company will also announce when there has been a major change to its Net Asset Value, for instance as a result of a disposal of an investment or if the Company undertakes a fundraising and needs to announce an interim valuation. The Directors do not anticipate any circumstances arising under which the calculation of the Net Asset Value may be suspended.
- 7.19 The Directors believe that the Offer has the potential to constitute a significant gross change in the Company, including an increase in the net assets of the Company by the amount of the net funds raised under the Offer (which, on the basis of maximum subscription under the Offer and an Offer Price of 70.5 pence per Offer Share, would be £9,450,000). Subject to the level of subscription under the Offer, an increase in net assets could have certain consequences, potentially including a reduction in the annual expense ratio of the Company, increasing the size and range of investments which the Company could undertake and increasing the number of investments the Company would be required to make in order to meet the VCT eligibility rules. The effect of the Offer on the earnings of the holders of Ordinary Shares is expected to be positive since the fixed costs of operating the Company will be spread over a larger asset base, thereby reducing the running cost per Share.

Part 8

Terms and Conditions of Application

1. The contract created by the acceptance of an Application will (unless the Board resolves otherwise) be conditional on the admission of the Offer Shares becoming effective.
2. The Offer Shares will be issued at an Offer Price calculated on the basis of the following formula ("the Pricing Formula"):
 - Offer Price per Share equals Net Asset Value (most recently announced prior to the date of allotment) adjusted for any dividend, divided by 0.945 to allow for issue costs of 5.5% of the gross sum subscribed calculated, in pence, rounded up to the nearest 0.25 pence.
 - The Offer Price will be determined by the Pricing Formula so as to avoid dilution in the Net Asset Value attributable to existing Shares.
 - The unaudited Net Asset Value of the Company as at 30 September 2011 (the latest date for which the Net Asset Value has been announced prior to the publication of this document) was 66.6 pence per Ordinary Share. Based on this, and after adjusting for the costs of the Offer, the Offer Shares would be issued at a price of 70.5 pence per Share.
3. (a) The right is reserved to present all cheques and banker's drafts for payment on receipt and to retain share certificates and subscription monies, pending clearance of successful Applicant cheques and banker's drafts. The Company may treat Applications as valid and binding even if not made in all respects in accordance with the prescribed instructions and the Company may, at its discretion, accept an Application in respect of which payment is not received prior to the closing of the Offer. If any Application is not accepted in full, or any contract created by acceptance does not become unconditional, or if any Application is accepted for fewer Offer Shares than the number applied for, the application monies or the balance of the amount paid on application will be returned without interest by post at the risk of the Applicant.

(b) Applications will be accepted generally on a first come, first served basis (but always subject to the absolute discretion of the Directors). Subscriptions which are not accompanied by cheques available for immediate presentation or by other valid payment means will be dealt with at the Directors' discretion. If any dispute arises as to the date or time at or on which an Application is received, the Directors' determination shall be final and binding.

(c) The Company reserves the right to allot and arrange for the listing of Offer Shares under the Offer prior to the stated closing date and generally vary the allotment and Admission timetable.
4. By completing and delivering an Application Form, you as the Applicant (and, if you sign an Application Form on behalf of somebody else, that person):
 - (a) irrevocably offer to subscribe the amount of money specified in your Application Form subject to the provisions of this document, these Terms and Conditions and the Memorandum and Articles of Association of British Smaller Companies VCT2 plc;
 - (b) authorise the Registrar to send share certificates in respect of the Offer Shares for which your Application is accepted, and/or a crossed cheque for any monies returnable by post without interest at your risk to your address as set out on your Application Form and to procure that your name is placed on the register of members of the Company in respect of such Offer Shares;
 - (c) agree that, in consideration of the Company agreeing to process your Application, your Application will not be revoked until after the closing date of the Offer and that this paragraph constitutes a collateral contract between you and the Company which will become binding upon despatch by post to or, in the case of delivery by hand, on receipt by, the Receiving Agent of your Application Form subject to your statutory rights of withdrawal in the event of the publication of a supplementary prospectus by the Company;
 - (d) warrant that your remittance will be honoured on first presentation and agree that, if such remittance is not so honoured, you will not be entitled to receive a share certificate for the Offer Shares applied for or to enjoy or receive any rights or distributions in respect of such Offer Shares unless and until you make payment in cleared funds for such Offer Shares and such payment is accepted by the Company (which acceptance shall be in its absolute discretion and may be on the basis that you indemnify it against all costs, damages, losses, expenses and liabilities arising out of or in connection with the failure of your remittance to be honoured on first presentation) and that at any time prior to unconditional acceptance by the Company of such late payment in respect of such Offer Shares, the Company may (without prejudice to their other rights) treat the agreement to allot such Offer Shares as void and may allot such Offer Shares to some other person, in which case you will not be entitled to any refund or payment in respect of such Offer Shares (other than return of such late payment);

-
- (e) agree that in respect of those Offer Shares for which your Application Form has been received and is not rejected, your Application may be accepted at the election of the Company either by notification to the UK Listing Authority of the basis of allocation or by notification of acceptance thereof to the Receiving Agent;
- (f) agree that any monies in respect of your Application together with any other monies received in respect of all Applications may be held on trust for the payment of the Offer Price in respect of Offer Shares for which you have subscribed or failing such payment be returned to you without interest and that any interest earned in respect of such monies will be paid to the Company;
- (g) agree that the monies returnable to you may be retained pending clearance of your remittance and any verification of identity which is, or which the Company or the Receiving Agent may consider to be, required by the Money Laundering Regulations 2007 and that such monies will not bear interest;
- (h) agree that, having had the opportunity to read the document, you are deemed to have had notice of all information and statements concerning the Company and the Offer Shares contained therein;

- (l) agree to disclose promptly in writing to the Company any information which it may reasonably request in connection with your Application, including, without limitation, satisfactory evidence of identity to ensure compliance with the Money Laundering Regulations 2007 and authorise it to disclose any information relating to your Application as it considers appropriate;
- (m) confirm that you have reviewed the restrictions contained in paragraphs 5 and 6 below and warrant that you are not a "US person" as defined in the United States Securities Act of 1933, as amended, nor a resident of Canada and that you are not applying for any Offer Shares with a view to their offer, sale or delivery to or for the benefit of any US Person or a resident of Canada, Australia, South Africa or Japan;
- (n) declare that you are aged 18 years or over;
- (o) warrant that if you sign the Application Form on behalf of somebody else or yourself and another or others jointly or a corporation you have due authority to do so and such person will also be bound accordingly and will be deemed also to have given the confirmations, warranties and undertakings contained in these terms and conditions of application and undertake (save in the case of signature by an authorised financial adviser on behalf of the Investor) to enclose a power of attorney or a copy thereof duly certified by a solicitor with the Application Form;
- (p) declare that a loan has not been made to you or any associate, which would not have been made, or would not have been made on the same terms, but for you offering to subscribe for, or acquiring, Offer Shares and that the Offer Shares are being acquired for bona fide commercial purposes and not as part of a scheme or arrangement the main purpose of which, or one of the main purposes of which, is the avoidance of tax;
- (q) declare that the Application Form has been completed to the best of your knowledge;
- (r) undertake that you will notify the Company if you are not, or cease to be, either a qualifying Applicant or beneficially entitled to the Offer Shares;
- (s) agree that all documents and cheques sent by post to, by or on behalf of the Company or the Receiving Agent will be sent at your risk.
5. No person receiving a copy of the document or an Application Form in any territory other than the United Kingdom may treat the same as constituting an invitation or offer to him or her, nor should he or she in any event use such Application Form unless, in the relevant territory, such an invitation or offer could lawfully be made to him or her or such Application Form could lawfully be used without contravention of any registration or other legal requirements. It is the responsibility of any person outside the United Kingdom wishing to make an application thereunder to satisfy himself or herself as to the full observance of the laws of any relevant territory in connection therewith, including obtaining any requisite governmental or other consents, observing any of the formalities requiring to be observed in such territory and paying any issue, transfer or other taxes required to be paid in such territory.

6. The Offer Shares have not been and will not be registered under the United States Securities Act 1933, as amended, or under the securities laws of any state or other political subdivision of the United States, and may not be offered or sold in the United States of America, its territories or possessions or other areas subject to its jurisdiction (the USA"). In addition, the Company has not been and will not be registered under the United States Investment Company Act of 1940, as amended. No Application will be accepted if it bears an address in the USA.
 7. Dealings prior to the issue of certificates for Offer Shares will be at the risk of qualifying Applicants. A person so dealing must recognise the risk that an Application may not have been accepted to the extent anticipated or at all.
 8. Authorised financial intermediaries who, acting on behalf of their clients, return valid Application Forms (bearing their stamp/full postal address and FSA number) will be entitled to commission on the amount payable in respect of the Offer Shares allocated for each such Application Form. IFAs may choose an introductory commission of 3% of sums subscribed or an introductory commission of 2.25% of sums subscribed. If the latter is chosen the IFA would also receive annual trail commission at a rate of 0.5% for up to eight years. Authorised financial advisers may agree to waive part or all of their introductory commission in respect of an application. If this is the case, then the Application amount will be increased by an amount equivalent to the amount of commission waived. Financial advisers should keep a record of Application Forms submitted bearing their stamp/full postal address and FSA number to substantiate any claim for their commission.
 9. The section headed Notes on the Application Form forms part of these Terms and Conditions of Application.
 10. It is a condition of this Offer that compliance with the Money Laundering Regulations 2007 is ensured. The Receiving Agent is therefore entitled to require, at its absolute discretion, verification of identity from any Applicant including, without limitation, any person who either (i) tenders payment by way of a cheque or banker's draft drawn on an account in the name of a person or persons other than the Applicant or (ii) appears to the Receiving Agent to be acting on behalf of some other person. Pending the provision of evidence satisfactory to the Receiving Agent as to the identity of the Applicant and/or any person on whose behalf the Applicant appears to be acting, the Receiving Agent may, at its absolute discretion, retain an Application Form lodged by an Applicant and/or the cheque or other remittance relating thereto and/or the Registrar may not enter the Applicant on the registers of members of the Company or issue any share certificates in respect of such application. If verification of identity is required, this may result in a delay in dealing with an application and in rejection of the application. The Company reserves the right, at its absolute discretion, for it or the Receiving Agent to reject any application in respect of which the Receiving Agent considers that, having requested verification of identity, it has not received evidence of such identity satisfactory to it by such time as was specified in the request for verification of identity or in any event within a reasonable period. In the event of an application being rejected in any such circumstances, the Company reserves the right at its absolute discretion, but shall have no obligation, to terminate any contract of allotment relating to or constituted by such Application Form (in which event the money payable or paid in respect of the application will be returned (without interest) to the account of the drawee bank from which such sums were originally debited) and/or to endeavour to procure other subscribers for the shares in question (but in each case without prejudice to any rights the Company may have to take proceedings to recover in respect of loss or damage suffered or incurred by it as a result of the failure to produce satisfactory evidence as aforesaid). The submission of an Application Form will constitute an undertaking by the Applicant to provide promptly to the Receiving Agent such information as may be specified by it as being required for the purpose of the Money Laundering Regulations 2007.
 11. The right is also reserved to treat as valid any application not complying fully with these Terms and Conditions of Application for the Offer or not in all respects complying with the Notes on the Application Form. In particular, but without limitation, the Company may accept applications made otherwise than by completion of an Application Form where the Applicant has agreed in some other manner acceptable to the Company to apply in accordance with these Terms and Conditions of Application.
